Re: Recommendation of Adam Olson

To Whom It May Concern:

It is with great confidence that we have the pleasure of writing this letter of recommendation for Mr. Adam Olson. Adam has served as our audio engineer for two recording projects thus far, and if we still lived close to Shenandoah University, we would definitely record more projects with Adam.

Not only does Adam display expertise in recording, but he goes above and beyond in customer service and communication while exuding a warmth and willingness to serve his clients to the best of his ability. Adam is also very keen to notice details of music in the recording process, and is able to quickly return to segments for musicians to correct mistakes or inconsistencies that would impact the final result. Having the background in both music and the use of advanced audio equipment is crucial to helping clients achieve a high-quality recording.

After utilizing the services of several other recording engineers and studios, we have yet to find the level of talent and character of an individual that matches that of Adam Olson.

Please feel free to contact us if you have any further questions.

Sincerely,

David and Sarah Bilowus
