I enjoyed the class, but I wish
that our grades were more available.
Adam was a good teacher, but
sometimes went very fast. He
definitely knows his subject though.

22. What other comments, if any, do you have about this course?

because of the distance between classes,
it would have been helpful to have smaller
assignments over 2 weeks that reinforced both
class discussion and reading.

Ok, let me say - Adam Olson is a genius and probably knows everything there is to know about recording / engineering. Because of this though, sometimes it is hard to understand. This is Systems I, and a lot of us have no knowledge of anything recording related. Maybe move a bit slower and make sure every little detail is fully explained.
Great other course!
