

# INSTRUMENTALISTS, SINGERS, MUSICIANS OF ALL KINDS!

Have you ever recorded a guitar part, only to notice that one string is out of tune? Have you ever sung one bad note in an otherwise perfect take? Want to fix it without having to re-record the entire take? Melodyne is the answer!

Ray Williams will be giving a Melodyne demonstration at SU to show what it's capable of. Melodyne is a powerful pitch-correcting plug-in that can be used in any digital audio workstation.

## **WHEN?**

Friday, April 9<sup>th</sup>, 3:00pm-5:00pm

## **WHERE?**

Ruebush 128 (Choral room)

## **WHO?**

Musicians, engineers, recording hobbyists, and anyone else interested in learning more about this fantastic pitch-correcting plug-in
