Question: What other comments, if any, do you have about this course?

### Response

The instructor was more concerned with grades than he was with teaching. He actively discouraged learning and made students too afraid of failing to experiment and try new things.

I enjoyed this course. Material was clearly presented. Class time was used effectively.

Question: What other comments, if any, do you have about this course?

Response

This class is fantastic.

Great class and teacher.

don't hand out a big final project the week before a break when people aren't able to work on it. And try to make a final project due at the final, as is normal for most classes.

This class has absolutely no use for Jazz Studies majors and should be removed from the curriculum. Also, the Mac Lab computers need serious repairs. I would often get stuck troubleshooting problems with the computers, which would then put me behind for t

*It was due the last day of class?*

Question: What other comments, if any, do you have about this course?

### Response

i got a ton out of it, but there are things i think could have been done differently. more communication about what is need from us before we go to class each week would be nice. i would also say that major assignments should not conflict with major event - *Sing don't know what 2 conflict with*

Bebop a doowop, wop bam boom!

The course is obviously designed for the MPRT curriculum. As the only composition major in the class, I felt extremely uncomfortable and out of place. The course is not appropriate for students with varying levels of experience. The class routine is monot *enough?*

*Yikes, I wish I knew what the best said. sorry to hear this.*

### Response

I am a music education major and this is probably the most fun, interesting, nerdy course I've taken. I didn't need it to graduate, nor did I need the elective credit. I wanted to learn more about the course matter and I did. I LOVED THIS CLASS. - Thanks!

Not enough coverage of the large amount of material presented in the readings. Sometimes difficult to know what was expected to be known for examinations.

Sad I handed out a study guide. but ok.
